IG Community DATA Act Working Group

➤ Mission

Assist the IG Community in understanding and meeting its DATA Act oversight requirements by (1) serving as a working level liaison with Treasury, (2) consulting with the Government Accountability Office, (3) developing a common review approach and methodology, and (4) coordinating key communications with other stakeholders.

➤ Stood up January 2015

➤ Over 90 members from 29 OIGs

➤ Accomplishments to date

- ✓ Established consultative protocol with GAO (e.g., meet monthly)

- ✓ Defined and communicated strategy for IG reporting anomaly

- ✓ Developed common methodology for “readiness reviews”

➤ Next steps

- ✓ Update common methodology for readiness reviews

- ✓ Develop common methodology for required reviews

Addressing the IG Date Anomaly and Readiness Reviews

- **CIGIE Letter to Congress (December 22, 2015)**
 - ✓ First agency IG report pushed back 1 year, to **November 2017**. Subsequent reports to follow in November 2019 and November 2021
 - ✓ Encourage IGs to perform DATA Act “readiness reviews”

➤ **Readiness review common methodology**

- ✓ Issued early December 2015
- ✓ Focus on agency implementation plan that was to be submitted to OMB in September 2015
 - 8-step DATA Act Playbook
- ✓ Consideration of shared services users and providers
- ✓ Progress towards planned milestones

➤ **Over 10 OIGs have started readiness reviews**

Developing the IG Required Review Methodology

- **Principal Working Group focus**
- **We are consulting with GAO**
- **Considerations**
 - ✓ Treasury/OMB guidance recently issued
 - ✓ Broker still a work-in-process
 - ✓ Reliance on management's internal controls
 - ✓ Data from systems outside of agency (FPDS-NG, SAM, FSRS)
 - ✓ Leveraging financial audit test work
 - ✓ Statistical sampling approach
 - Transaction level testing and source documentation – how far do we need to go?
 - Summary financial data testing

Preparing for the IG Required Reviews

- **IGs will be looking for:**
 - ✓ A description of the design, and documentation of the regular execution, of the control procedures and systems through which agency management gains assurance that the data submitted by the agency under the Act is complete, timely, accurate, and compliant with applicable data standards; and
 - ✓ A description of how systems and processes interact to provide an auditable record of the data submitted under the Act
 - ✓ In other words – document, document, document

- We encourage agencies to share information with their IG about plans and processes *as they are developed and implemented*

-
- Management, not the IGs, are responsible for completeness, timeliness, quality, and accuracy of spending data

How are SAOs getting happy with their agencies' data submissions?

Looking Beyond the First IG Review

- The DATA Act allows for the 2nd (November 2019) and 3rd (November 2021) required IG review to be part of the annual financial audit report
 - ✓ This approach, if elected by the IG, will likely entail amending contracts
